

Nifty100 Financial Intelligence

Day 45 — Acceptance Checklist

Acceptance-gate record based on the completed Sprint 1–6 verification. The two failed gates are documented as known project limitations and are not hidden.

ID	Acceptance criterion	Status	Verification
AC-01	92 companies	PASS	Authoritative company universe contains 92 companies.
AC-02	Historical coverage	PASS	84/92 companies (91.3%) have at least 10 years of P&L;/BS/CF coverage.
AC-03	Foreign-key integrity	PASS	Foreign-key check returned 0 errors.
AC-04	Financial ratio rows	PASS	1,188 financial ratio rows are present.
AC-05	TCS Revenue CAGR	PASS	TCS Mar-2019 to Mar-2024 Revenue CAGR is 10.4636%, matching the database within 0.1%.
AC-06	ROE consistency	FAIL	Company-level ROE and ratio-engine ROE differ by more than the required 5% tolerance for sampled companies.
AC-07	Quality screener	PASS	ROE > 15%, D/E < 1 and FCF > 0 returned 32 companies, within the required 10–50 range.
AC-08	Profile performance	PASS	TCS profile API returned HTTP 200 in about 0.023 seconds.
AC-09	Screener CSV export	PASS	Dashboard screener contains CSV download functionality.
AC-10	Company tearsheets	PASS	Sampled company PDFs are valid PDF files and earlier visual checks were completed.
AC-11	API health	PASS	Health endpoint returned HTTP 200 with database status OK and row counts.
AC-12	Ratios API	PASS	TCS ratios endpoint returned HTTP 200 with 13 records.
AC-13	Excel/API screener consistency	FAIL	Excel screener output and API Quality filter currently return different company sets.
AC-14	Peer coverage	PASS	11 peer groups are represented with expected coverage.
AC-15	Clustering	PASS	cluster_labels.csv contains 92 unique companies with cluster IDs 0–4.
AC-16	Pros/Cons coverage	PASS	483 signals cover all 92 companies; every company has both Pro and Con coverage.
AC-17	Tearsheets completeness	PASS	92/92 company tearsheets are present after adding the JIOFIN case.
AC-18	Automated tests	PASS	135 tests passed with 2 warnings.
AC-19	Validation failures format	PASS	validation_failures.csv contains the required columns.
AC-20	Analyst guide	PASS	Analyst guide exists and contains 12 pages (required 10+).

Summary

18 of 20 acceptance gates pass. AC-06 (ROE consistency) and AC-13 (Excel/API screener consistency) remain FAIL and should be disclosed in the final project documentation.

Completed Day 45 supporting deliverables: docs/analyst_guide.pdf, docs/openapi.json, docs/Postman_Collection.json, and reports/pytest_report.html.
